

Sustainability

Projects with environmental certification in Austria, Europe and throughout the world.

SPAR logistics centre in Ebergassing -
DGNB platinum award for building performance.

DGNB

BRUCHA Panel panels for the SPAR logistics centre in Ebergassing - structure height up to 27.5m, total length of 325m.

Extract from the green-BUILDING magazine:
"Demonstrable sustainability:
The Ebergassing logistics centre of the Austrian retail chain SPAR receives the DGNB platinum award from the Austrian Sustainable Building Council for the structure's ecological performance."

Dutch fruit and vegetable importer receives the highest BREEAM rating for construction of the new company headquarters.

The headquarters of Nature's Pride, close to Rotterdam, was built using BRUCHA-Panel panels and awarded the "Breeam Excellent Design Certificate" for its sustainable construction method.

Nature's Pride/NL - fruit and vegetable importer.
Excellent rating - one of the sustainable logistics centres in Western Europe.

BREEAM®

The Euroswiss project in Manila - the first meat processing plant in the Philippines receives **silver LEED environmental certification**.

Following successful completion of the work, the plant received the official award from the LEED certification body. The assessment was based on the energy outlay, materials and resources, as well as the interior quality, innovation and design process.

Euro-Swiss Food Incorporated - food processing/Philippines
is a LEED®-registered project and received the silver-level certificate.
